Quality & Safety.

➤ **Quality:**

We are dedicated to ensure that all of our activities are carried out to the highest possible standards and projects are:

- Built in accordance with contract specifications and drawings.
- In compliance with Client Regulations.
- In compliance with statutory requirements.
- In conformity with industry best practice.
- In compliance with Planning Conditions, where applicable.
- Completed to the satisfaction of the Design Team and Clients.

The Quality Management System has been developed and is reviewed and revised on an on going basis to achieve the aims outlined above.

➤ **Safety:**

The aim of AA IT & POWER TECHNOLOGY is to carry out work under safety guidance and ensure safety of its employees and its workers, such as

- Establish an Occupational Health & Safety Management System to eliminate or minimize risks to employees and other third parties who maybe exposed to Occupational risks associated with MDY Construction's activities.
- Implement, maintain and continually improve their Occupational Health & Safety Management System.

- Ensure conformance with its stated Occupational Health & Safety policy.
- Demonstrate such conformances to other interested parties.
- Providing employees with the information, training and supervision that they need to work safely and efficiently and to develop safety awareness among employees and subcontractors.
- Defining all individual responsibilities for health and safety obligations.
